Steam cleaners

SC 1502 + iron

Details

Description

This successor to the very successful SC 1501 meets the highest customer demands in terms of performance, design and convenience of operation. The 2-litre water tank enables the whole household to be cleaned with very few interruptions. This unit's maximum pressure of 4 bar gives it a higher steam discharge rate than its predecessor. Limescale, greasy deposits and other stubborn stains can be remove effectively in an environment friendly way. Steam flow is infinitely variable on the unit so that the jet of steam can be adjusted to suit the task in hand and the degree of soiling. This unit has been designed to look attractive and, at the same time, offer a maximum of user convenience. Typical features of the attention to detail are the easily understood controls, the large accessory compartment, the plug-in fittings for the steam tubes as well as the large wheels for smooth mobility and manoeuvrability. Like all other Kärcher steam cleaners, the SC 1502 meets very high standards of quality and safety. The aluminium boiler ensures a long service life. The heating elements are integrally cast in the aluminium so that they cannot scale up. In addition, the special aluminium alloy has good heat retention properties. The unit is particularly safe to use and child-proof because the patented safety cap on the steam boiler cannot be opened while it is still under pressure.

Application

The SC 1502 can be used everywhere in the home: - On hard surfaces - In the bathroom and toilet - On glass and mirrors - On smooth furniture surfaces - For textile care

Features & Benefits

2300 W heater Short heating time (6 min/l for first filling, 4 min/l for second filling) Convenient, infinitely variable steam flow control Optimum adjustment of the steam jet for different cleaning tasks Fully insulated steam boiler from special aluminium alloy Keeps the heat well, usuable volume 2.0 l Hand grip Unit is easy to carry Iron Combination by iron and steam cleaner are shortened the ironing time.
